

Why LEA Pomurje?

Because the region....

- needs and must ensure the energy sustainable development;
- must reduce the emissions of greenhouse gases and to ensure the environment friendly economic and social development and to raise the awareness of inhabitants and industry
- as well as to promote the use of renewable energy sources and rational use of energy.

LEA Pomurje?

Local Energy Agencies in EU and out of it are assigned to stimulate local energy development and consulting on the field of energy. Under their patronage they are uniting experts who have knowledge and experience on individual fields of RES and RUE.

Local Energy Agency are switching on into development programmes of local communities, connecting with the regional agencies and the national agency. Local Energy Agency must cover minimum 100.000 inhabitants.
